

One Box, Infinite Possibilities

Key Features:

Transparency Made Simple

- Stream public meetings in high quality so citizens can clearly hear and see their representatives. Build trust and meet open-meeting requirements—without expensive equipment or contractors.

Easy Meeting Management:

- No AV tech needed. One-touch start and scene presets make it easy for clerks and staff to manage live or hybrid meetings with minimal effort.

Smart Budget Savings:

- StreamSync replaces multiple devices in one unit, cutting hardware costs and maintenance. It works with your current PA system and cameras to stretch public dollars further.

Better Accessibility:

- Support closed captions, assistive devices, and remote viewing. Stream to websites or social platforms and archive recordings to meet public record needs.

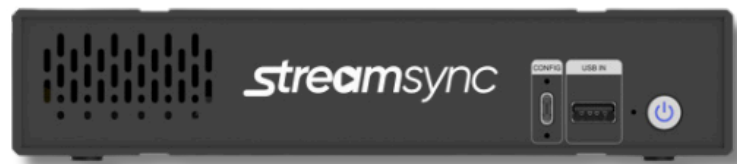

Venue Flexibility:

- From council chambers to libraries, StreamSync moves with you. Compact and quick to configure, it's perfect for any public event, big or small.

Optional Encoders & Decoders:

- StreamSync handles stream merging and routing internally—simplifying infrastructure while reducing costs and complexity.

Optimizing AV for Government Collaboration

What is StreamSync?

StreamSync is a powerful, all-in-one A/V matrix built to meet the unique demands of public sector communication. Whether it's a city council meeting, school board session, or public hearing, StreamSync enables seamless integration of multiple video and audio sources into a single, high-quality stream—without the need for external encoders or decoders. Designed to support transparency, accessibility, and community engagement, StreamSync allows local governments to broadcast meetings, connect remote participants, and share critical public information easily and professionally.

Smart for Public Budgets

- Consolidates multiple A/V devices into one unit
- Cuts hardware and support costs
- Maximizes existing infrastructure

Built for Public Staff

- Quick, reliable setup by clerks or city staff
- Scene presets and touch controls simplify use
- Works with current PA systems and meeting tools

Prepared for the Future

- Supports wireless screen casting
- USB-C setup for fast updates
- Scales across departments and venues

streamsync

One Box, Infinite Possibilities

StreamSync in Action:

Public meetings require clear communication, reliable technology, and ease of use—especially with limited staff and tight budgets. StreamSync empowers city councils, school boards, and public agencies to stream and record meetings with professional quality. Whether connecting remote speakers, sharing presentations, or broadcasting to the public, StreamSync ensures every session runs smoothly, is accessible to all, and reflects the professionalism your community expects.

Specifications:

Video Input/Output:

- 7× NDI® | HX inputs at 1080p60 resolution, 6× NDI® outputs
- 3× HDMI® inputs, 2× HDMI® outputs
- 1× USB® Type-C port for multi-view or individual video feeds

Audio Management:

- Dante® stream matrix with 16-channel (in/out) 24-bit audio
- Supports audio to NDI® stream mapping, perfect for integrating audio systems with microphones and video streams

Advanced Matrix Support:

- Supports 12×12 video matrix and 16×12 input / 22×16 output audio matrix channels, ensuring each participant's audio and video are routed where needed, in the highest quality possible

Flexible Connectivity:

- Integration with Crestron/QSYS systems for advanced control and automation
- HTTP API for remote device status updates and control
